for Global Competitiveness**

**ABOUT THE CONCLAVE**

The event on “Evolving Role of Independent Directors and Startup Governance” brings together board members, founders, investors, and governance experts to explore how Independent Directors are shaping stronger, more accountable organizations in today’s dynamic business environment. It focuses on their expanding role in driving ethical governance, balancing stakeholder interests, enhancing board effectiveness, and supporting sustainable growth amid increasing regulatory and investor expectations.

As startups transition from early-stage innovation to scaling and even unicorn status, they face increasing expectations around transparency, compliance, and accountability. This event focuses on equipping stakeholders with the tools and insights needed to build resilient governance structures—covering areas such as board effectiveness, the role of independent directors, investor relations, risk management, and ethical leadership.

**THEMES**

- Redefining Independent Directors as strategic enablers by strengthening independence, fostering diverse perspectives, and elevating board effectiveness, participation, and oversight to build high-performing future-ready boards.
- Driving objectivity, governance maturity, and long-term value creation
- Navigating decision-making dynamics between founders, investors, and independent board members.
- Board Dynamics in high-valuation, fast scaling companies. Aligning agile business models with robust governance, compliance, and accountability structures.
