Dear Friends,

I have pleasure in inviting you to the 2019 Dubai Global Convention (29th World Congress) on Leadership For Business Excellence & Innovation, being held on 5-7th March 2019, at Hotel Habtoor Palace, LXR, Al Habtoor City, Dubai, (UAE). The Theme is "Reshaping Board's Strategy for Business Excellence through Creativity & Innovation".

Excellence is a continual quest at achieving world-class standards in all aspects of business. In today's uncertain and volatile world, businesses are under an unprecedented pressure to perform. Business leaders need to align corporate strategy and execution, to position their organisations for long-term, sustainable growth and success in the global marketplace.

Business excellence is rooted in transformational leadership, organizational capabilities and disruptive innovation than in technological prowess. Considering looming Sustainability challenges, businesses are investing in sustained growth, driven at the hinges of disruptive and frugal innovation.

Business excellence is not a destination, but a journey. Destination Dubai makes for a perfect backdrop to discuss and deliberate on 'Business Excellence', given the unprecedented global business opportunities, offered by this fast growing entrepreneurial hub of the Middle-East. The development footprints of Dubai, with forthcoming Dubai Expo-2020, hold much for all of us.

The Dubai Global Convention is a flagship event of the 'Institute Of Directors', India, being held annually. The Convention is a platform conceptualised to bring together opportunities for learning and sharing between the members and associated companies and organisations, covering transformational leadership for disruptive innovation and business excellence. A one of its kind initiative, the convention brings forth diverse companies and dignitaries on one platform, to critically discuss Business Excellence and collaborations.

This Global Convention will provide a platform for the congruence of leaders, professionals and drivers of business excellence and quality-driven innovation.
