## ABOUT THE WEBINAR

The demand for transparency on sustainable and socially responsible practices is increasing. Companies are accountable to their various stakeholders like investors, customers, employees, suppliers and nongovernmental organizations (NGOs) who want to evaluate a company's impact on the world. Environmental, Social and Governance (ESG) analysis and reporting can provide valuable insights and help create long-term value for stakeholders. It can significantly impact the financial metrics of a company and enable investment decisions. IOD Bengaluru is organizing a webinar on ESG with the theme "The New Frontier of Governance".
